Lester Snow, Executive Director  
CalFed Bay/Delta Program  
1416 Ninth St #1155  
Sacramento CA 95814

Dear Mr. Snow,

I am writing on behalf of the many California residents who believe that CALFED'S Bay/Delta Program must be revised.

There needs to be serious investments in water conservation and efficiency, groundwater management, pollution prevention and drinking water treatment.

The Bay/Delta program must work toward restoring rivers, bays and fisheries by providing firm guarantees of more fresh water flows and by caring for land around streams.

You may do this by a threefold approach: Conserving Restoring and Educating! Thank you.

Sincerely,

  
Danny Beatty
